

## Criteria for Sewage Works Design (Orange Book)

Publication No. 98-37 WQ  
December 1998

Proceed and view by Chapter - multiple PDF files or,  
[View complete Orange Book - single PDF file \(3.04 MB, 482 pages\)](#)

This file serves as a table of contents for all Orange Book files. [Blue text](#) and chapter icons in these files indicate hyperlinks. (Clicking on a chapter icon below will link to a chapter file; clicking on a chapter icon within a chapter file (located on first page) will link back to this file.)

For the most current information about this manual, refer to the Orange Book home page on the Washington State Department of Ecology internet site at [www.wa.gov/ecology/wq/orange/](http://www.wa.gov/ecology/wq/orange/)

### Covers, spine, and tabs

#### Front matter to manual

|                                 |      |
|---------------------------------|------|
| Title Page .....                | i    |
| Contact Information .....       | ii   |
| Publication History .....       | ii   |
| Contents.....                   | iii  |
| Purpose of Manual .....         | iv   |
| Acknowledgements .....          | iv   |
| How to Use This Manual .....    | viii |
| Figures.....                    | ix   |
| Tables .....                    | x    |
| Abbreviations and Acronyms..... | xi   |

#### General

Chapter G1  
General Engineering  
Requirements

Chapter G2  
General Considerations

Chapter G3  
Special Considerations for Small  
Community Systems

#### Collection

Chapter C1  
Sewers

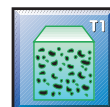

Chapter C2  
Sewage Pump Stations

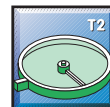

Chapter C3  
Combined Sewer Overflows

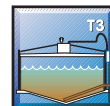

#### Treatment

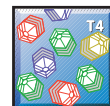

Chapter T1  
Preliminary Treatment/ Septage  
and Other Liquid Hauled Wastes

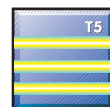

Chapter T2  
Primary Treatment

Chapter T3  
Biological Treatment

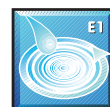

Chapter T4  
Chemical/Physical Treatment

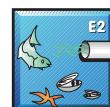

Chapter T5  
Disinfection

#### Effluent

Chapter E1  
Water Reclamation and Reuse

Chapter E2  
Effluent Disposal to Surface  
Water

Chapter E3  
Effluent Disposal to Ground  
Water

#### Solids

Chapter S  
Residual Solids Management
